

Publications & Guides

Technical papers and other publications about the adoption and use of AI across the curriculum by UF academic leaders, faculty and communicators.

2026

The Role of Universities in Preparing an AI-Enabled Workforce

How to prepare an AI-enabled workforce, using the University of Florida (UF) as a model.

Building the K-12 pipeline for an AI-enabled workforce

A framework to build AI workforce pathways that connect K-12 education, postsecondary preparation and workforce development.

Human Infrastructure

Building the Human Infrastructure for High-Performance Computing.

Building an AI University: An Administrator's Guide

Lessons gleaned from the UF AI Initiative.

Reimagining the University: A Blue-Sky Visioning Framework for AI

Analyses of UF's AI Blue-sky Visioning Taskforce.

Guidelines for Use of AI at the University of Florida

Outlines a university-wide framework for using AI responsibly in teaching, learning, research, and HR.

Building University Technological Infrastructure to Support AI

A practical framework to help universities evaluate their best pathway and align AI infrastructure decisions with institutional goals.

2025

AI Across the Curriculum: Governance, Taxonomy, and Institutional Strategy

A model for other universities seeking to prepare students and support faculty for an AI-driven world.

AI at UF continues to evolve. The university-wide UF AI Blue Sky Task Force released a report in the spring of 2025 with a series of recommendations for how the university can lead AI-driven higher education in the next five years.

2024

AI Technologies in Education at the University of Florida: Best Practices for Generative AI

Guiding Principles for the Use of Generative AI Technologies.

UF Information Technology: How to Talk About HiPerGator

Information on how to describe HiPerGator, UF's supercomputing system.

AI Across the Curriculum

University of Florida 2024-2029 Quality Enhancement Plan.

2023

Media & Learning: Developing Career-Ready Graduates: The Importance of AI Literacy Across the Curriculum

Are you curious about how AI can be incorporated into undergraduate education across a diverse university with many different colleges?

AI² Center: Talking Points

Need help telling UF's AI story? Here are some talking points outlining how UF defines what it means to be an AI university.

AI² Center: Building the Nation's First AI University

This booklet details UF's journey in building the Nation's First AI University.

AI² Center: Building an AI University: An Administrator's Guide

A white paper on how UF built an AI University by Joe Glover.

AI² Center: UF's AI Professional Development for Florida's K-12 Teachers

Florida is among the first states to adopt a K-12 artificial intelligence education program designed to prepare its youth for the growing global demand for an AI-enabled workforce. Educators are key to preparing students to thrive in a world where artificial intelligence is integral to their lives and careers.

AI² Center: Become an AI Scholar

UF undergraduate students who are interested in pursuing AI-related research with a UF faculty member are invited to apply for the AI Scholars Program through the Center for Undergraduate Research. Scholars are selected through a competitive process in the spring.

Science Direct: Developing a Model for AI Across the Curriculum

This position paper outlines a path to address potential gaps in AI education and to integrate AI across the curriculum at a traditional research university.

2022

AI² Center: UF's AI Partnership with Educational Institutions

The University of Florida is committed to leveraging its artificial intelligence knowledge and resources by partnering with other institutions, thereby reaching far more people and having a far greater impact than it could alone. Our AI partnerships include other institutions of higher learning, primary and secondary schools, and private sector organizations.

AI² Center: AI Across the Curriculum

The university became committed to building the nation's first AI university by infusing AI instruction in all disciplines, hiring more than 100 expert AI faculty across our 16 colleges, and offering more than 200 courses in AI and data science to thousands of students.

AI² Center: UF's Undergraduate Certificate in Artificial Intelligence

UF students can add value to their degree with a certificate in AI Fundamentals and Applications.

2021

UF Foundation: Data Based Human Inspired Artificial Intelligence at UF

UF is breaking new ground by harnessing the power of artificial intelligence and data science to amplify our ability to impact the people and communities we serve.
