

The AI² Center

The Artificial Intelligence Academic Initiative Center, known as AI² (AI squared) is your hub for AI-enhanced learning opportunities at the University of Florida and beyond.

Equipping an AI-Ready Workforce

In 2022, the university established centralized leadership of AI academic efforts via the establishment of the Artificial Intelligence Academic Initiative (AI²) Center.

Our contributions to training an AI-ready workforce that strengthens our nation's economy and security include:

- Coordinating AI academic program and certificate development
- Identifying opportunities for faculty and students to engage with AI
- Organizing AI seminars and conferences
- Sharing knowledge and resources on teaching AI
- Partnering with UF's Career Connections Center, Florida's colleges and universities, SEC universities, and private industry
- Overseeing the university's Quality Enhancement Plan, the key element of UF's accreditation by the Southern Association of Colleges and Schools Commission of Colleges (SACSCOC).
- Managing the AI Learning Academy
